

The Marine Industry

Protecting Against Corrosion

CORROCOAT USA

PROTECTION AGAINST MARINE CORROSION

Many of the specialist coatings Corrocoat use were initially developed for the marine industry. Developed to offer protection to new components before entering service and to reclaim and refurbish severely corroded components at the fraction of the cost of replacement.

PUMPS & VALVES

Casings, Impellers and components. Fire and bilge pumps, salt water intake systems

PUMP SERVICES

Dedicated, pump repair team, and the latest on-site thermodynamic pump testing

TANKS

Cold water, fuel tanks, water boxes, ballast

RUDDERS

Rudders, stabilisers, fin flaps

PROPELLERS, THRUSTERS

Shafts, shaft couplings, casings, bow thrusters, Voith Schnieder and Kort Nozzles

ANTI-FOULING

Specialist anti fouling coatings - Biofoul

OTHER

Pipe work, evaporators, turbine condensers, heat exchangers, exhaust units, bilge plates, scrubbers

COMPOSITE STRUCTURAL REPAIRS

To all types of components
